
Hiring: Experienced Autism/ADHD Psychotherapist

Are you a Registered Social Worker (RSW) or Registered Psychotherapist (RP) who works with youth and adults within a neurodiversity-affirming framework? Does it bother you that traditional mental health care services can be ineffective, at best, and do harm, at worst, to neurodivergent clients? Do you want to be a part of a non-traditional, visionary, interdisciplinary, virtual group practice where you can grow, professionally, in a supportive environment?

Scattergram Counselling & Consulting is looking for an experienced Autism/ADHD Psychotherapist who can work with couples, late-diagnosed clients, teens, families, groups, and everything in between. We would be *really* excited if you have training or experience as an **ADHD coach**, with **OCD**, eating disorders, or other anxiety disorders, or using an embodied approach to **trauma** (IFS, sensorimotor, etc), and are licensed to practice in more than one province.

Scattergram is more than just a group therapy practice. We are at the forefront of transforming care for neurodivergent people across Canada, through neurodiversity-affirming service delivery, program and resource development, training, and widespread dissemination of knowledge - *knowledge that isn't written in any social work or therapy textbooks*. Yet.

You will be a good fit with our team if you want to:

- be at the forefront of neurodiversity-affirming care in Canada
- be trained in our trademarked A.C.C.E.P.T.™ neurodiversity-affirming treatment model, with ongoing group supervision
- have opportunities for continuous learning, program development, writing, publishing, and public speaking
- have your identity as neurodivergent/neurodivergent-affirming and its intersections with race, LGBTQ2SI+, religion, and other dis/abilities affirmed
- work with people who are really smart and really fun!

Responsibilities and Qualifications

- MSW (RSW) or specialized therapy training (RP)
- Insured and licensed to practice under your regulatory body
- Five to ten years counselling experience
- Building and leading groups an asset
- Creating training material and resources an asset

Deadline to Apply: April 7, 2023
